

**INTERNATIONAL PRACTICAL SHOOTING
CONFEDERATION**

MATCH ORGANIZATION

2019 EHC SLOTS ALLOCATION PROTOCOL

FOREWORD

The slot allocation is managed by IPSC Vice-President Alain Joly, approved by the IPSC Executive Council in coordination with the match organizers and the Regional Director of the region where the competition is organized.

The pre-match slots are reserved for approved Match Officials and Organisation Crew, Sponsors of the championship, IPSC Patrons, Dignitaries (approved by the Match Director and IPSC), who are members in good standing of their Region of residence, IPSC Executive Council members and Regional Directors.

The maximum slots available at the main match for 24 Stages level IV competitions are as follows:

Handgun (16 shooters/squad): 4 days = 768 – 5 days = 960

1 - SLOT ALLOCATION PRINCIPLES

The Level IV main match slots allocation is based on the following principles:

- 90% of the slots are reserved to the Zone Regions
-
- Between 10 to 30 slots are reserved to the Patrons

To promote development, each Region is entitled with 4 slots at the main match to register at least one team (4 shooters registered in the same Division in any category) under the condition that the Region was in voting position at the previous IPSC General Assembly (per capita fees equal to 100 members or more).

If the Region cannot register a Team (not enough shooters in the same division), only 2 slots are allocated.

If the Region mentioned over wasn't in voting position at the last IPSC General Assembly, so only 2 slots are allocated.

All the other slots are allocated proportionately in function of the average of per capita fees paid by each Region during the past 3 years.

Example:

If there are 500 slots available and a total of 10 000 members in the Zone

If a Region X = 1000 members, the slot allocation is = $(500/10000) \times 1000 = 50$ slots

Final slot allocation for the Region X:

4 slots for 1 team + 50 slots as per capita ratio – Total = 54 slots

2 – SLOTS DISTRIBUTION

After calculation, the IPSC administration advise the match organizer and the regions of the number of slots allocated.

- **1st Distribution (1st round robin)**

- 4 slots are allocated to all the voting Zone Regions, who paid for 100 or more members.
- 2 slots are allocated to the Zone Regions, who paid under 100 members.
- 100 slots are allocated to the non-zone Regions for a maximum of 4 slots per Region at the first distribution.
- 20 slots are reserved to the IPSC Patrons.
- The rest of the slots are allocated to the Zone Regions following the per capita ratio calculation principle.

The IPSC administration send a letter to all the Regional Directors to indicate the number of slots allocated, the Bank coordinates of the match organizer, the options concerning the wishes of the Region concerned as:

- Accept ALL of the slots as allocated (no returns, no extras)
- Accept ALL of the slots as allocated AND request additional slots
- Accept SOME of the slots as allocated, and return unneeded slots
- Accept NONE of the slots as allocated

and the deadlines fixed to provide the wishes from all levels and make the payment.

All the slots allocated at the 1st slot distribution who aren't reserved before the deadline will be allocated at the 2nd slot distribution

- **2nd Distribution (2nd round robin)**

The non-used slots from the Zone Regions and the IPSC Patrons will be whether distributed to the Zone Regions, if possible in function of the requests, or following the per capita ratio calculation principle.

The non-used slots from the Non-Zones Regions will be whether distributed to the Non-Zones Regions, if possible in function of the requests, or following the per capita ratio calculation principle.

- **3rd Distribution (3rd round robin)**

All the remaining slots will be whether distributed to the Zone Region, if possible in function of the requests, or following the per capita ratio calculation principle or given back to the match organizer.
